

# OUR FAMILY EMERGENCY PLAN

Post a copy of this plan on your refrigerator and make sure everyone has a copy on them during the hurricane. Put it in backpacks, glove compartments, emergency kits, shelters, etc. You never know when you may need it.

# OUT-OF-AREA CONTACT

It's important to identify someone located outside of the area directly affected by the hurricane. They are more likely to maintain electricity and access to resources that can aid you after the storm.
